

Garage + existing outbuilding · west elevation comparison

Both window options retained · outbuilding shown in front of garage · north left / south right

A · One window south of the balcony

B · Three small windows following the slope

Existing outbuilding: tan infill, gray steel and green roof line.
Proposed garage walkway / balcony: white framing at loft-floor level.

Outbuilding heights and grade remain approximate, as accepted.
Apparent roof-to-balcony separation is not a verified clearance.

Base shallow-cap profile used for this overlay. Both projecting-cornice and low-hip alternatives remain available. No FreeCAD geometry changed.
